

WATER HAULING SERVICES

CT delivers comprehensive solutions for the safe hauling, transfer and disposal of industrial fluids and waste for leading companies across the Appalachian Basin. Water is an essential part of any gas drilling operation and CT has the size, scale, expertise and experience to haul fluids efficiently and safely. Whether hauling produced water to a treatment facility or delivering fresh water to the well site, CT has everything in place to make sure your water is where it needs to be, when it needs to be there. The benefit of using CT includes:

- 24/7 In-house Dispatch
- GPS Tracking & Monitoring
- Forward and Rear Facing Cameras
- Monthly Driver Training
- Smith System Trained Drivers

CT is recognized as an industry leader in safety and environmental protection. CT employees receive training throughout the year in the classroom, on the road, and in the field.

CONTRACTOR
TRANSPORT LLC

Contractor Transport, LLC (CT) is a fluids and environmental solutions provider offering customized services to the water, stimulation, fracturing, fluids, and production needs of our customers throughout the U.S. CT's Pennsylvania & West Virginia based local teams consist of professional and field service resources throughout the Marcellus & Utica Shale regions. CT employs more than 350 local personnel ranging from CDL drivers, environmental technicians, equipment operators, safety personnel, heavy equipment operators, and laborers throughout Eastern US.

Safety

CT is committed to providing our clients with the safest most dependable solutions. Our local footprint and young fleet specialized for the energy industry coupled with our customer centric employees enables us to provide true 24/7 customer service. At CT, we believe that every accident, and therefore every injury, is preventable, and we embed that philosophy into every CT effort through a combination of technical field procedures and ongoing training programs. Every employee has stop-work authority—if it's not safe, don't do it. The result is exceptional safety performance, even in hazardous work environments, severe weather, and remote locations. All CT employees are put through a rigorous onboarding training program that consists of classroom training as well as on the job training.
