WELLSITE SERVICES

CT provides a "one-stop" solution for the variety of services required for the successful and cost effective drilling and completion of a well. CT's highly skilled and cross-trained roustabout professionals, who are typically deployed in 2-person, 3-person or 4-person crews across five locations, provide safe and reliable wellsite services. These services include:

- Tank facility construction
- Tank cleaning
- Rig cleaning
- Pipeline installation and repair
- General oilfield maintenance and repair
- Permanent and temporary fencing services
- Production tank setup
- Pumping unit installation
- Reclamation
- E&S services and repair
- Decommissioning services

In addition to a complete offering of roustabout services, CT provides a full array of other wellsite services, including, but not limited to:

- Lease road preparation and construction services
- Soil hauling and mixing
- Hot Shot services
- Water hauling
- Traffic control
- Emergency response services

CONTRACTOR TRANSPORT LLC

CONTRACTOR TRANSPORT LLC

Contractor Transport, LLC (CT) is a fluids and environmental solutions provider offering customized services to the water, stimulation, fracturing, fluids, and production needs of our customers throughout the U.S. CT's Pennsylvania & West Virginia based local teams consist of professional and field service resources throughout the Marcellus & Utica Shale regions. CT employs more than 350 local personnel ranging from CDL drivers, environmental technicians, equipment operators, safety personnel, heavy equipment operators, and laborers throughout Eastern US.

Safety

CT is committed to providing our clients with the safest most dependable solutions. Our local footprint and young fleet specialized for the energy industry coupled with our customer centric employees enables us to provide true 24/7 customer service. At CT, we believe that every accident, and therefore every injury, is preventable, and we embed that philosophy into every CT effort through a combination of technical field procedures and ongoing training programs. Every employee has stop-work authority—if it's not safe, don't do it. The result is exceptional safety performance, even in hazardous work environments, severe weather, and remote locations. All CT employees are put through a rigorous onboarding training program that consists of classroom training as well as on the job training.
